

Betcrete™
INNOVATIVE POLYMER PRODUCTS

Betcrete NEWS 2012

Welcome to Betcrete's new website.

Over the last year we have worked on a better more user friendly website.

We have added PDF downloads with product information, that can easily be printed.

We are constantly developing new product lines. See our Indoor and Outdoor PDF files for latest products.

Betcrete Windows within SANS 10400 regulation.

In South Africa polymer concrete usage remains relatively new compared to other global hotspots, but with Betcrete and its line up of licensees meeting demand through out the nation and nearby Namibia and Botswana, its look set to change.

Betcrete has achieved A4 status for its window systems, making it suitable for all climate conditions in Africa. Betcrete is fully compatible with the new SANS10400 regulations :

AAAMSA Energy Saving Tests have successfully been done.

This makes Betcrete the best window, door, balustrade and moulding option for the future.
